THE BALTIMORE AND OHIO RAILROAD COMPANY HAS GIVEN NOTICE THAT THEY WILL MEET THE TUNK LINE OUT TO SOUTHERN POINTS ON MONDAY.

The Bulgarians rejoice that the Bulgarian question has assumed a more international character. They think this tends to avert the danger of an armed occupation.

"GLADSTONE, in an interview at Brussels, says his health has been greatly benefited by his sojourn in Germany. Regarding the last bill, he said he did not think the struggle would seriously begin until the next session of Parliament.

The Bulgarian DPM is as anxious to know what candidate for the Bulgarian throne would be acceptable to the Powers before proceeding to the election of Prince Alexander's successor, as they are unwilling to choose a candidate whom the Powers might reject.

Sir CHARLES DILKE, it is announced, is to re-enter public life as the editor of a London newspaper. But his paper will scarcely be able to compete with its rivals unless in the interests of journalistic success he sticks to personal feelings and publishes full accounts of those entertaining scandals that he himself creates.

INCENDIARIES Friday night visited the Joshua Heights Methodist Camp Meeting grounds, and set fire to the frame cottage, of which there are 250 in the grove. About a dozen were destroyed and a large space in the grove was burned away. Fifty men and women turned out with buckets and battled with the flames. The loss is heavy.

The experience of Charleston goes to show that the certain and immediate effect of earthquakes is to raise wages. A fact of such significance should not be overlooked by those Republicans who are in earnest to catch the latter vote, unless, of course, they are to their ugly committed to a protective tariff favor earthquakes to the interest of American labor.

THE NEW YORK WORLD says: "Some enterprising magazine should now obtain war stories from Geronimo. It would be too bad to let the great Apache stand so suddenly." But magazines war stories are invariably written to do somebody's military reputation, and Geronimo is unacquainted with any American army general that has any military reputation to destroy.

BRADY is a vere on Mahone and his mistake, and is bitterly opposed to Gaines, declaring his fixed purpose to endeavor to honorably effect his defeat at his election, and giving names of other influential party leaders who will do likewise. Brady favors the election of a colored man to Congress since he has himself failed of nomination by what he conceives to have been duplicity and treachery on the part of Mahone.

WILLIAM H. PARKER, the American Minister to Corea, reports to the Secretary of State, under date of August 23, that the cholera is still raging throughout Corea. No reliable statistics are kept, but it is estimated that 500 die inside the walls of Seoul, and that so far 12,000 have died. In Chemulpo about twenty deaths occur daily in the small Korean villages. Foreigners have yet been attacked, either in Seoul or Chemulpo. The disease is said to be worse in the country than in Seoul, but the Minister can hardly believe.

There are few men in Shelby county so well qualified for active and telling service in the State Senate as Mr. Hugh L. Binkley, whose acquaintance appears in another column. Here where his life has been spent he is universally popular, a fact which would of itself make him a formidable candidate for any office within the gift of the people. But his experience in large affairs, his intimate acquaintance with public men and measures, give him a positive strength which is paramount to a claim. Full of energy, with broad and liberal views, he is well fitted to represent a great commercial city like Memphis, and his nomination would receive the enthusiastic support of his party.

THE EVENING STAR reiterates its belief that Secretary Manning has been tendered the Austrian mission, with a view to securing a settlement of the silver question in this country, by effecting a combination between Germany, Austria and Russia for the maintenance of a bimetallic currency on the basis of the Latin Union. The article asserts positively that the appointment has been left to the decision of Secretary Manning himself. Secretary Bayard, when questioned on the subject tonight, said: "I have no knowledge of Mr. Manning's desire to go there, I have no knowledge of any proposition to send him there, and I have no knowledge of any circumstances pointing in that direction."
